William-Olsson salen

Geohuset Stockholm University

REE-Symposium

We welcome you to a symposium on REE deposits in the Nordic countries at Stockholm University. On Monday 24 November we will host a full day of talks and discussions in William Olsson-salen, Geohuset, covering REE deposits across the Nordic countries, their geology and genesis, mineral processing, and recent projects from exploration to production. The meeting is open to researchers, industry, and students, and aims to share results, exchange ideas, and connect people working on these topics. You can find the detailed schedule printed below. As places on site are limited, it will also be possible to attend the talks online through the link provided in the registration form. We finish the day with a dinner and mingle to continue the conversations in a relaxed setting. To secure a place on site, please register early using the link or QR-code on the front page (deadline: **10 November**).

Time	Speaker	Presentation title
08.50-09.00		Introduction
09.00-09.30	Erik Jonsson, SGU	Nordic REE mineral resources
09.30-10.00	Laura Lauri, LKAB	The geology of the Per Geijer Deposit, Kiruna, Sweden
10.00-10.30	Jarek Majka, UU	Stability of REE phosphates during metamorphism and metasomatism
10.30-11.00	Coffee break	
11.00-11.30	Trond Watne, REN	The Fen Carbonatite Complex - A potential European source of rare earth elements
11.30-12.00	Nolwenn Coint, NGU	The Fen Deposit, Norway - age dating and genesis
12.00-12.30	Stefan Andersson, SGU	Bastnäs-type REE deposits and other related mineralisations along the REE-line, Bergslagen, Sweden
12.30-13.30	Lunch	
13.30-14.00	Pär Jonsen, LKAB	The REEMap project
14.00-14.30	Kerstin Forsberg, KTH	Metallurgical processing of REEs and permanent magnets
14.30-15.00	Erik Jonsson, SGU	Grängesberg: IOA deposits in Bergslagen, Sweden
15.00-15.30	Coffee break	
15.30-16.00	Kurt Budge, Leading Edge Materials	Norra Kärr HREE deposit, Sweden - journey to production
16.00-16.30	Axel Sjöqvist, GU	Geology of the Norra Kärr HREE deposit, Sweden
16.30-17.00	Julia Sordyl, UU	REE bearing phosphates in the Alum Shale formation, Fetsjön, Sweden
17.00-17.30	Stefan Andersson, SGU	The Olserum-Djupedal REE deposits, SE Sweden
from 17.30	Beer, posters, dinner
